

Joint Replacement Camp

Classroom 2— 1st floor, Across from the Garden Café

Thursdays • 10:30 AM—12:30 PM

What is Joint Replacement Camp?

Garden Park has developed an interactive educational session for patients undergoing total hip replacements and total knee replacements. During this education session, the patient will have an opportunity to meet members from our joint replacement team such as Pharmacy, Physical Therapy, Case Management, infection prevention, and Nursing.

Education regarding what to expect before and after the total joint replacement is pivotal to overall success of the surgery. Here at Garden Park, we believe that an educated, informed patient is a successful patient.

Please bring your care partner (person that will help you when you go home) with you so that they can help you with your success. Lunch will be provided.

For more information, please call **Jenny Vercher, Ortho/Surgical Director** at **228-575-7029**.
